EXPERIENCE

Staff Data Scientist, Ericsson

Data Scientist at Ericsson Cognitive Network Solutions (JS7):

Madrid, Spain
February 2026 — Present

- Lead Machine Learning Scientist for Research organization of +70.
- Founder and Head of Ericsson Cognitive Labs.
- Expert for Machine Learning certifications in +30k organization.

Adjunct Professor, Comillas Pontifical University (ICAI)

Bachelor of Engineering, Mathematical Engineering & Artificial Intelligence (iMAT):

Madrid, Spain
January 2024 — Present

- Course Coordinator and Professor for the "Deep Learning" Course at the "Mathematical & Artificial Intelligence" Degree (iMAT).

Senior Data Scientist, Ericsson

Data Scientist at Ericsson Cognitive Network Solutions (JS6):

Madrid, Spain
January 2024 — January 2026

- Top Performance Award (TPC), most prestigious recognition at Ericsson.
- Member of the Data Science Board, a group of experts who manage Machine Learning in a +300 people organization.

Experienced Data Scientist, Ericsson

Data Scientist at Ericsson Cognitive Network Solutions (JS5):

Madrid, Spain
June 2023 — Dec 2023

- Machine Learning Lead for products.
- Creation of ETL internal tools.
- Graph Neural Network Expert in Ericsson.

Data Scientist, Ericsson

Data Scientist at Ericsson Cognitive Network Solutions (JS4):

Madrid, Spain
June 2022 — May 2023

- Building Machine Learning products based on Graph Neural Networks and Explainability.

EDUCATION

Comillas Pontifical University (ICAI), Madrid, Spain

Doctor of Philosophy (PhD), Computer Science

February 2025 — Present

- Thesis: Explainability in Graph Neural Networks.

University Carlos III of Madrid (UC3M), Madrid, Spain

Master of Science, Artificial Intelligence

September 2022 — September 2024
GPA: 8.43/10

- Thesis: Bayesian Graph Neural Networks: Confidence Intervals.
- Awards: Nova 111 Student List (best 111 students of Spain).

Comillas Pontifical University (ICAI), Madrid, Spain

Double Bachelor of Engineering, Telecommunications Engineering & Business Analytics

September 2017 — June 2022
GPA: 8.28/10

- Thesis: Development of visualization and interpretation tools for convolutional neural networks.
- Thesis: Electricity Price Forecasting with Transformers.
- Exchange program: University of Texas at Austin, Fall and Spring Honor List, GPA:3.82/4

Publications and Talks

- Filled 5 patents in machine learning applied to telecommunications (topics: optimization, forecasting & parallelism).
- Published 1 conference paper and 2 preprints under review (topics: Deep Learning & Explainability).
- Talks and posters at technical conferences, as the PyTorch Conference or the Stanford Graph Learning Workshop.

SKILLS

Machine Learning, Deep Learning, Graph Neural Networks, Python, PyTorch, Tensorflow, Jax, Numpy, Polars, Pandas, Tensorboard, MLFlow, SQL, Docker, Jenkins, Git, MLOps, Problem-solving, Teamwork, Leadership
